NOTES

1. Personnel in italics are accounted for elsewhere.

2. The columns headed "Arm or Corps from which provided" (or the notes giving similar information) are intended to show the arm or corps from which personnel will normally be found, but this will not preclude the appointment of personnel of other arms or corps.

The information thus given is mainly for the use of those who require to know the extra-regimental establishments of the various arms or corps.

3. The numbers shown as "under instruction" are the average numbers under instruction at any one time, except where otherwise stated.

By Command of the Army Council,

H. J. Creedy
